General comments about golf and your golf:

Golf is a great game, the walking around the course keeps you fit and healthy and out in the fresh air. Golf is also a great game for meeting new people and friends. Golf also teaches you how to manage the highs and lows of golf and how to manage your way around the golf course. Golf when you are successful also teaches you to be able to talk to a group of other people in public and helps develop your confidence in everyday life.
